Michael Sims is the author most recently of *In the Womb*: Animals (adapted from two National Geographic Channel documentaries); he is also the author of *Apollo's Fire: A Journey through the Extraordinary Wonders of an Ordinary Day*, which NPR chose as one of the best science books of 2007; *Adam's Navel: A Natural and Cultural History of the Human Form*, which was a New York Times Notable Book and a Library Journal Best Science Book; and *Darwin's Orchestra: An Almanac of Nature in History* and ...

Adam's Navel: A Natural and Cultural History of the Human ...

As a person often accused of navel gazing, I found some validation in Michael Sims's "Adam's Navel: A Natural and Cultural History of the Human Form." Finally, I learned that contemplation of one's navel has rich cultural, scientific, and theological antecedents. Freud saw it as a symbol of the unknown.

Adam's Navel: A Natural and Cultural History of the Human ...

In a sense Adam's Navel is an updated version of blazons and counterblazons, focusing largely (but not solely) on how the cultural history of the body reflects its natural history. Although I resist the kind of personification in which the blasonneurs indulged, I address our ambivalent regard for the vehicle—comic and tragic, divine and mundane—that carries our aspiring consciousness from cradle to grave.

Michael Sims: Adam's Navel: A Natural And Cultural History ...

This group of learned theologians and scholars believe that Adam's navel was formed after the Fall. The very instant when Adam and Eve discovered they were naked in the Garden of Eden, they were granted belly-buttons. You see, at this point there were no natural births, they were the only two people on the planet.
