Hi Little D - Miniature AVs need even more light than standard varieties. Try moving the plant to brighter spot, if possible, or place it beneath fluorescents. Also, better to use a plant food which is high in phosphorous. You might like to use the same food I use (it's mentioned in the article above), or

It is slightly darker than a "normal" wah. The top end gets only a little brighter than the actual guitar sound and it has a very smooth overall sound - the low has close to the same signal strength as the mid and the top. Unlike the RMC1, the Wizard is designed to work with most any pickup configuration and any
