FANUC America Industrial Robots R-2000iB

The FANUC R-2000+B robot is an intelligent robot for versatile applications. This highly reliable robot with intelligence and network collaboration provides the best cost performance and ease of use for applications with integrated versatile process solutions such as spot welding, material handling and assembly.

Multi-purpose Intelligent Robot FANUC Robot R-2000+B series

FANUC Robotics' R-2000iB/200T overhead, rail-mounted robot is the latest-generation, heavy payload member of the Toploader family of six-axis, modular construction, electric servo-driven robots designed for material handling and machine tending parts. The R-2000iB/200T robot has the ability to perform value-added post-processing operations.

R-2000iB/200T

The FANUC robot R-2000iB is the intelligent robot for versatile applications with the up to date expertise at FANUC in last quarter century. The highly reliable robot with intelligence and network collaboration provides the best cost performance and prompts ease of use applications with integrated versatile process solutions
