The Theory of Multiple Intelligences - Howard Gardner

Howard Gardner's theory of multiple intelligences proposes that people are not born with all of the intelligence they will ever have. This theory challenged the traditional notion that there is one single type of intelligence, sometimes known as "g" for general intelligence, that only focuses on cognitive abilities.

Gardner's Theory of Multiple Intelligences | Simply Psychology

Howard Gardner's brilliant conception of individual competence is changing the face of education today. In the ten years since the publication of his seminal *Frames of Mind*, thousands of educators, parents, and researchers have explored the practical implications of Multiple Intelligences (MI) theory—the powerful notion that there are separate human capacities, ranging from musical ...
