overview over all important philosophical traditions (not only the Anglo-American ones) but also all essential problems – from issues in marriage, gender or race to normative problems in human rights, global justice or immigration.

Social and Political Philosophy: A Contemporary Introduction

PHIL 182: Social and Political Philosophy. This course examines the norms or principles that establish and justify societies and determine the rights and responsibilities of a society in relation to its own members, of the members in relation to each other and to society as a whole, and of a society in relation to other societies. The course considers the application of these principles to such issues as justice, human rights, political and social institutions, and world community.

PHIL 182: Social and Political Philosophy: Philosophy ...

Politics denotes a social activity. It is in essence the interaction of individuals. As the Greek philosopher Aristotle explains, it is the master science through which individuals collectively set structure, purpose, and ideals in their lives. Politics, therefore, does not emerge from the activities of a single individual but from that of many.
