The concept of the winch is a perfect way to build an early sense of how people can build awesome things with simple machines like pulleys. Little ones will probably need your help constructing the winch—but with tools like cardboard paper towel rolls and a spool of ribbon, the parts are all kid-friendly (and inexpensive).

11 Engaging STEM Activities for Kids that Will Foster ...

Educational toys (sometimes called "instructive toys") are objects of play, generally designed for children, which are expected to stimulate learning. They are often intended to meet an educational purpose such as helping a child develop a particular skill or teaching a child about a particular subject. They often simplify, miniaturize, or model activities and objects used by adults.
