Robinson R22 Pilot's Guide

(ASA-PG-R-22) Pilot's Guide Series: Robinson R22 by John Swan provides detailed information including an overall description of the Robinson R22, its limitations, handling characteristics, and loading/performance data.

Pilot's Guide Series: Robinson R-22

In the early 1980s, the R22 experienced a number of student-pilot related accidents due to the R22's use as a primary flight trainer. Believing the number of accidents was the result of insufficient training and lax standards, Robinson established the Robinson Pilot Safety Course in 1982 to educate Certified Flight Instructors transitioning from larger helicopters to the new, smaller R22. [18]

Helicopter Flight Controls - Helicopter Training Videos

Robinson R22 The R22 is the most popular training helicopter in use in UK schools because of its low cost per flight hour, typically around £330. However, the R22 was never designed by Frank Robinson as a basic trainer and has a number of flight characteristics that can take a while to master. The primary of these is its low inertia rotor head.

Which Helicopter Should I Train In?

Remove from the Rotorcraft Flight Manual the Special Pilot Caution contained in Robinson Helicopter Company R22 SB-85, dated March 22, 1999, or the Special Pilot Caution insert in the Normal Procedures Section of the Rotorcraft Flight Manual between pages P.4-8 and P.4-9 required by airworthiness directive DCA/R22/36, as applicable.
