### **Harley-Davidson engine timeline - Wikipedia**

The distinctive sound of the Harley-Davidson motorcycle engine is produced by V-twin, common crankpin motorcycle engines when in use. Harley-Davidson competitors opposed the trade mark application, arguing that cruiser-style motorcycles of various brands use a single-crankpin V-twin engine which produce a similar sound.

### **The Harley-Davidson Sound Trademark - Smit & Van Wyk**

Nine of Harley-Davidson's competitors filed oppositions against the application, arguing that cruiser-style motorcycles of various brands use the same crankpin V-twin engine which produces the same sound. After six years of litigation, with no end in sight, in early 2000, Harley-Davidson withdrew their application.

### **Sound trademark - Wikipedia**

Harley Davidson sued Honda over the Shadow ACE, for too closely resembling H-D. At issue was the distinctive sound of a V-twin with a single-pin crank.

### **That Time Harley Sued Honda For Building Imitation Harleys**

Harley aficionados, and of course the company itself, see it differently. To them the Harley sound, said to resemble “potato-potato-potato,” is as distinctive as the Energizer bunny. (Judge for yourself with the sound clip at <http://www.svw.co.za/the-harley-davidson-sound-trademark> ).
