In reality, the nature of the doctor-patient relationship likely changes over time. Early on, at the time of diagnosis, education and guidance are useful in learning to manage the disease. Once treatment plans are

established, the patient moves towards the mutual-participation model as they monitor their symptoms, report difficulties, and work with the doctor to modify their treatment plan.

Why Is the Doctor-Patient Relationship So Important?

Patient-provider relationships have recently emerged as cornerstones of quality healthcare. A 2017 survey from the Council of Accountable Physician Practices (CAPP) found that consumers believe patient-provider relationships are the single most important factor in quality care.

3 Key Traits of a Positive Patient-Provider Relationship

- **EDUCATING PATIENTS:** Education plays a crucial part in a good doctor-patient relationship. Education involves a dialogue where the physician elicits the patient's thoughts, feelings and beliefs, and then provides new information consistent with the patient's needs and interests.

Improving the Doctor-Patient Relationship

BACKGROUND: The importance of a sustained relationship between patients and physicians is a defining characteristic of family medicine. This study examined whether there is an association among the length of the patient-physician relationship, various attributes of primary care, and the delivery of clinical preventive services to Medicare beneficiaries.

The patient-physician relationship, primary care ...

However, a patient-physician relationship is generally formed when a physician affirmatively acts in a patient's case by examining, diagnosing, treating, or agreeing to do so [5]. Once the physician consensually enters into a relationship with a patient in any of these ways, a legal contract is formed in which the physician owes a duty to that patient to continue to treat or properly ...

When Is a Patient-Physician Relationship Established ...

Trust is the keystone of a patient-physician relationship. It is an indispensable virtue of a good physician. Without this virtue, the relationship disintegrates, just as happens to an arch when the keystone is removed. With it, we enhance our ability to heal the body and the soul of the patient, the physician, and the patient care team.
